

# PERINATAL NEUROSCIENCE FOUNDATIONS CERTIFICATION

Every health care professional working with parents works with the brain, whether or not we explicitly name it.

When you understand how the parental brain adapts and where it can become vulnerable, you are better equipped to validate clients' experiences, reduce shame, strengthen assessments, and intervene with clarity and confidence.

This 2-day online Perinatal Neuroscience Intensive training is designed for therapists and perinatal professionals who want neuroscience that directly informs clinical thinking, language, and care.

## **2-Day Live Online Training**

**May 29 & 30, 2026**

**9:30am–2:30pm (Toronto)**

**Instructor: Dr. Jodi Pawluski, PhD, PMH-C**

**9 CECs (via CCPA-ACCP)**
